

Shue, Feb. 15, 1990

Dear Jimmy and Vickie:

This is my first letter on the computer. What do you think of this? Dad is going shopping very soon. The snow came down this morning so I did not get to the bridge club on Mercer Island. We think a trip with you to Italy sounds like a dream out of Paradise and it is a wonderful thing to think that a son and also his wife could offer such a huge get together. I can't think of just the words I wish to say. I must tell you about Ruthie. She feels fine and her arm is out of the bandage now and she will be starting radiation next week every day for quite some time, I am not sure for how long but for a few weeks and then she will have chemotherapy. Jeannie is going to Arkansas Friday the 23rd of this month to a clinic there which is supposed to help her get well. The doctor there in the clinic is not a chiropractor but it sounds like someone very close to it. He doesn't crack the bones but supposedly will work on her inner feelings and she will be there for one week. Art won't be going as Stevie will be home for Spring vacation and they will go skiing and Carmen will be staying in school. Gail is fine and goes on trips often for the travel agency she works for. I will stop for now and I think this is a great way to type letters.

*Love,
Mom.*

CH

Our weather is quite cold and a snow storm is on the news report but I really don't believe it. Every one gets so excited when we have a few flurries which is mostly rain, but maybe?
